SUMMARY

Front-End Web Developer proficient in HTML, CSS, and JavaScript, with hands-on experience in React.js. Detail-oriented and collaborative team player, eager to contribute technical skills and creativity to enhance user experiences.

TECHNICAL SKILLS

- HTML5/CSS3
- React JS
- Redux Toolkit
- jQuery
- SASS/SCSS
- Git
- JavaScript
- React Native
- REST APIs
- TypeScript
- Tailwind CSS
- GitHub

WORK EXPERIENCE

UI/UX intern, KaizIQ

Oct 2023 - Jan 2024

- Optimized KaizIQ's product interface for responsiveness, enhancing user experience. Developed multi-screen responsiveness for 8 pages and 1 major component using React JS and SCSS.
- Implemented multi-language input storage in an SQL database.

React JS Developer Intern, QuadB Technologies

Feb 2024 - Present

- Contributing to the development of Web3 Decentralized Apps within the ICP ecosystem using React JS, Tailwind CSS, TypeScript, etc.,

PROJECTS

Debounce and Throttle search

• [Repo link](#) • [Live link](#)

- Utilized JavaScript API and event listeners to develop a multi-section project. Implemented search bars in all three sections, each with distinct functionality.
- The first section fetches data on every key-up event, responding instantly to user input.
- The second section employs debouncing, fetching data 5 seconds after each key-up event.
- The third section utilizes throttling, fetching data every 5 seconds during continuous user input.

File Explorer

• [Repo link](#) • [Live link](#)

- In the Projects, you developed a File Explorer in React JS, gaining hands-on experience with recursion.
- The File Explorer features include adding, deleting, and renaming files and folders.

Netflix clone with a new 'Mood' feature

• [Repo link](#) • [Live link](#)

- Developed a Netflix clone using HTML, CSS, and JavaScript, integrating Movies APIs and Google YouTube API.
- Designed and implemented a 'Mood feature' that takes user input through emojis, suggesting relevant movies or shows fetched from the API based on their selected mood.
- Also, I developed an automatic image slider using React JS.

Multi Medicine Reminder Alarm Web App

• [Repo link](#) • [Live link](#)

- Developed a multiple alarm system, similar to a mobile phone alarm app, to hone web development skills.
- Utilized JavaScript to effectively manage time, a crucial aspect of alarm system functionality.
- Also, I used local storage in browser to store the timings.

EDUCATION

Electronics and Communication Engineering, MLRITM

2020 - 2024

Telangana, Hyderabad • 8.21/10 (CGPA)

12th (PCM) , Sri Chaitanya Junior Kalashala

2018 - 2020

Telangana, Hyderabad • 9.58/10 (CGPA)

10th (CBSE), Paramount Academy

2018

Muzaffarpur, Bihar • 8.69/10 (CGPA)

CERTIFICATIONS
