WORK EXPERIENCE

Android Developer at Ultrakey IT Solutions Pvt Ltd   **July 2024 - Present**

- Developed a full-stack mobile application using React Native for delivering trending news, with a Node.js backend, MongoDB database, and AWS S3 for image storage.
- Built and integrated a backend API to manage news content, currently preparing for launch.

Frontend Developer at Ajastos Film Technology Labs Pvt Ltd   **June 2024 - Aug 2024**

- Contributed in the development of the front end of the Pre-writing tools pages for the Script Editor using React JS and Tailwind CSS.
- Screeplay.INK project is a sophisticated web application designed to assist directors and writers in crafting compelling scripts for various purposes, whether it be for films, theater, or other creative projects.

React JS Developer intern at QuadB Technologies   **Feb 2024 - July 2024**

- Contributed to the development of Web3 Decentralized Apps within the ICP ecosystem using React JS, Tailwind CSS, TypeScript.
- Worked on the different pages such as landing page, dashboard page, profile settings page with responsiveness, backend integration along with dark and light theme.

UI/UX intern, KaizIQ   **Oct 2023 - Jan 2024**

- Worked on KaizIQ's product interface for responsiveness, enhancing user experience. Developed multi-screen responsiveness for 8 pages and 1 major component using React JS and SCSS.
- Implemented multi-language input storage in an SQL database.

PROJECTS

Trending News Guru Android App   • **Play Store link**

- Developed a sleek and user-friendly mobile news application using React Native and Expo. Integrated a Node.js backend with MongoDB to store news data and AWS S3 for image storage.
- The app features a wide range of news categories including sports, entertainment, coding, politics, movies, etc. Also, it offers location-based news.
- Enhanced the user experience with a clean UI, making it easy for users to explore and stay updated on the latest trends.
